Our services

Your supply chain solution

From procurement to fulfilment, we offer a broad portfolio: Express shipping (national/international), temperature-controlled transport (2–8 °C/15–25 °C), storage and commissioning.

EXPRESS

Fast shipping with a delivery time of less than 24 hours and over ten different express services.

ACTIVE TEMPERATURE CONTROL

Nationwide and sustainable conscious transport in the range of 2–8 °C and 15–25 °C.

HIGHEST SECURITY

Professional handling of goods, including the use of special sorting equipment and temperature-controlled halls.

TRANSPARENT AND SECURE PROCESSES

Digital tracking with a constant overview of the status and detailed temperature curves.

HAZARDOUS GOODS COMPETENCE

Secure transport of sensitive and high-value goods of all dangerous goods classes (except class 1).

2C SERVICES

Flexible and easy shipping, taking into account special requirements for delivery to home patients.

COMPLETE LOGISTICS

Efficient and customised solutions for every step of the supply chain - from collection to on-time delivery.

Fast. Secure. trans-o-flex.

For everything that needs to arrive safely and quickly

For over 50 years, trans-o-flex offers its customers customised and comprehensive logistics solutions for demanding industries.

With different express services and actively temperature-controlled networks (2–8 °C and 15–25 °C), we achieve a standard delivery time within the next working day - for fast and secure deliveries. Our system enables end-to-end processing of the entire logistics chain - from collection, storage, packaging and serialisation through to on-time delivery. For time-critical consignments without reloading, our direct and charter journeys offer particularly fast and efficient delivery - directly to the recipient.

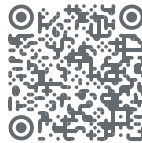

In addition, with our Special Services, we develop individual logistics solutions for highly complex or specialised requirements that go beyond standard logistics solutions..

With the global network of trans-o-flex and GEODIS, you benefit from solutions in Supply Chain Optimisation, Freight Forwarding, Contract Logistics, Distribution & Express, Road Transport and Airfreight for your international expansion.

Global. Solution-orientated. Connected.

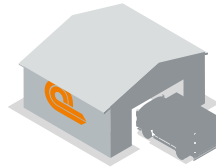

Express

Fast and secure: because it matters!

Our national express shipping service enables you to transport documents, parcels or pallets to their destination efficiently. Thanks to our wide-ranging logistics network, we guarantee a speedy and effective delivery of your consignments.

- + HEALTH EXPRESS
- + TECH EXPRESS

We understand the importance of every shipment - whether it's urgent business documents, sensitive medical samples or important electrical equipment. We treat every shipment with the highest priority. Our national express delivery services are varied and range from next day delivery to delivery at a specific time or on a requested date. We work closely alongside customers to ensure that their consignment reaches its destination not only on time, but also in perfect condition.

Tech Express defines the transport of consumer and household electronics and other high-value and sensitive electronic goods.

Health Express bundles our GDP-services for all pharmaceutical or cosmetic goods that do not need to be stored, transported and delivered in a specific temperature range.

Benefits

- Flexible express delivery times (before 8/9/10/12).
- Documents or parcels and pallets also as combined freight.
- Can be combined with numerous other services
- Comprehensive express portfolio from a single source.

Portfolio

Comprehensive time-optimised services

EXPRESS 8:00 / 9:00 / 10:00 / 12:00

This is the right option for your urgent shipments, which will be delivered before 8:00, 9:00, 10:00 or 12:00 on the next working day. We deliver goods nationwide from Monday to Friday, and optionally on Saturdays too. Use our simple online service checker to find out which time options are available without restriction in your area.

SERVICE OVERVIEW

- Priority processing of your shipments
- Monitoring of your delivery
- Notification information for your customers via trans-o-flex insight
- Applies to parcel and pallet shipments
- Option for storage and delivery agreements
- Telephone information via recipient service

Benefits

- Flexible control of particularly urgent and important shipments
- Earlier availability of goods for your recipients
- Greater predictability
- Can be combined with other services

NEXT DAY GUARANTEE

If you want your shipment to be guaranteed for delivery on the next working day from Monday to Friday, then play it safe with our guaranteed service.

SERVICE OVERVIEW

- Priority handling of your shipment
- Applies to parcel and pallet shipments
- Option for delivery and drop-off agreements
- Telephone information provided by recipient service

Benefits

- Flexible control of particularly urgent and important shipments
- Greater predictability
- Money-back guarantee: No next-day delivery – refund of up to €15
- Can be combined with other services

EVENING SERVICE

The trans-o-flex evening service is the solution for secure late delivery of your shipments on the following working day from Monday to Friday between 5 p.m. and 8 p.m.

SERVICE OVERVIEW

- Time slot delivery from 5 p.m. to 8 p.m.
- Applies to parcel and pallet shipments
- Option for drop-off and delivery agreements
- Telephone information via recipient service

Benefits

- Greater predictability
- Targeted, time-slot-specific delivery of goods
- Particularly suitable for private/working recipients
- Can be combined with other services

SATURDAY SERVICE

With the Saturday service, your goods will also be delivered on Saturdays. We are also happy to offer an express option before 12:00 or 10:00.

SERVICE OVERVIEW

- Delivery of your shipment by the following Saturday at the latest
- Applies to parcel and pallet shipments
Option for delivery and storage agreements

- Delivery or collection on the date specified by you from Monday to Friday
- Secure temporary storage of goods
- Applies to parcel and pallet shipments
- Option for delivery and collection agreements
- Telephone information provided by recipient service

Benefits

- Greater predictability
- Flexible and predictable control of delivery dates
- Just-in-time delivery
- Ideal allocation of warehouse resources
- Control of promotions
- Can be combined with other services

Your benefits

Fast and secure logistics is our core competence

From fast availability to targeted delivery, we offer a comprehensive portfolio: express shipping before opening hours or in the evening, temperature-controlled transport (2–8°C/15–25°C), hazardous goods services, storage and real-time shipment tracking.

EARLIER AVAILABILITY OF GOODS

Our services enable goods to be available much earlier before opening hours or delivery options outside regular delivery windows, such as evening service or Saturday delivery.

EXPRESS PORTFOLIO

Take advantage of our comprehensive express portfolio from a single source. With our wide range of time-optimised services, we can meet all your customers' needs.

COMBINABILITY

Can be combined with numerous other services, such as dangerous goods, temperature-sensitive goods 2 °C to 8 °C and 15 °C to 25 °C.

TARGETED DELIVERY OF GOODS

Predictable and significantly earlier availability of goods for the recipient with our tof.Ident and the Insight app, everyone involved in the transaction is kept up to date.

AND MUCH MORE

Combined freight: Transport of parcels and pallets in a network

Shipment term (1 shipment = n packages)

Gentle handling of goods thanks to shoe sorter technologies

Personal contact person in sales and customer service

+ AMBIENT EXPRESS

+ THERMO EXPRESS

Experience is particularly important when it comes to temperature-sensitive products. Our actively temperature-controlled network (2-8 °C / 15-25 °C) covers Germany, Austria and, via Eurotemp, the Netherlands, Belgium and Luxembourg.

Thermo Express is the perfect answer to the GDP requirements for the transport of temperature-sensitive pharmaceuticals in the range between 2 °C and 8 °C.

Ambient Express is the efficient trans-flex solution for the fast and reliable transport of temperature-sensitive pharmaceuticals in the range from 15 °C to 25 °C.

With our actively temperature-controlled transport solutions, you no longer need coolants, special packaging, or external loggers, which contributes to the optimization of your process costs

Benefits

- Temperature-controlled network in DE, AT & BeNeLux
- Electronic temperature monitoring
- Standard packaging - no special containers required
- GDP+ for maximum security & transparency

Your benefits

After all, not all transport is the same

ACTIVE TEMPERATURE CONTROL

Regardless of outside temperatures or cooling aids: active shipping is efficient, sustainable and does not require special packaging.

COMPLETE DATA COLLECTION

Temperatures of 2–8°C or 15–25°C are continuously monitored, documented and secured in accordance with GDP during transport, handling and temporary storage.

STANDARD PACKAGING POSSIBLE

No need for insulated boxes or ice packs. This saves on reverse logistics and reduces your overall costs.

FLEXIBLE SHIPPING TIME

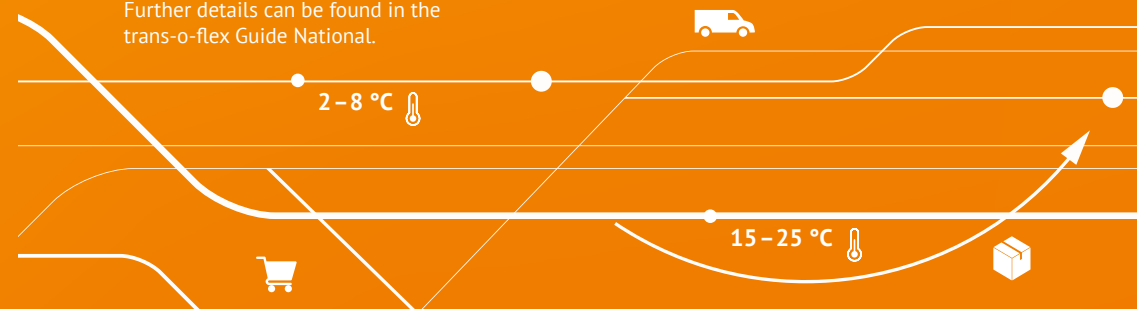

Unaffected by shipping days: Shipments accepted on Fridays are delivered on the next working day under temperature-controlled conditions, including monitoring over the weekend.

TEMPERATURE-CONTROLLED STORAGE

As part of our contract logistics services, we store your sensitive products in actively temperature-controlled areas in accordance with GDP guidelines – perfect for further processing and distribution.

Further details can be found in the trans-o-flex Guide National.
