Our services

Your supply chain solution

From procurement to fulfilment, we offer a broad portfolio: Express shipping (national/international), temperature-controlled transport (2–8 °C/15–25 °C), storage and commissioning.

EXPRESS

Fast shipping in under 24 hours, with more than ten different express services.

ACTIVE TEMPERATURE CONTROL

Nationwide, sustainably managed transport at 2–8 °C and 15–25 °C.

HIGHEST SECURITY

Professional handling of goods, including the use of special sorting equipment and temperature-controlled halls.

TRANSPARENT AND SECURE PROCESSES

Digital tracking with a constant overview of the status and detailed temperature curves.

HAZARDOUS GOODS COMPETENCE

Secure transport of sensitive and high-value goods of all dangerous goods classes (except class 1).

2C SERVICES

Flexible and easy shipping, taking into account special requirements for delivery to home patients.

COMPLETE LOGISTICS

Efficient and customised solutions for every step of the supply chain - from collection to on-time delivery.

Fast. Secure. trans-o-flex.

For everything that needs to arrive safely and quickly

For over 50 years, trans-o-flex offers its customers customised and comprehensive logistics solutions for demanding industries.

With different express services and actively temperature-controlled networks (2–8 °C and 15–25 °C), we achieve a standard delivery time within the next working day - for fast and secure deliveries. Our system enables end-to-end processing of the entire logistics chain - from collection, storage, packaging and serialisation through to on-time delivery. For time-critical consignments without reloading, our direct and charter journeys offer particularly fast and effi-

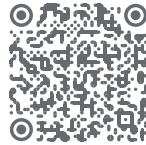

cient delivery - directly to the recipient. In addition, with our Special Services, we develop individual logistics solutions for highly complex or specialised requirements that go beyond the standard

Being part of the GEODIS Group provides access to a global network offering solutions in supply chain optimisation, freight forwarding, contract logistics, distribution & express, road transport and air freight.

Global. Solution-orientated. Connected.

Special Services

As individual as your consignment

Reliable solutions for sensitive, urgent and particularly valuable consignments.

- + TIME CRITICAL SOLUTIONS
- + TAILOR-MADE SOLUTIONS

Where standard solutions are not enough, you will find the flexibility of trans-o-flex in our extensive range of special services. We understand that some consignments require special attention and extreme urgency. That's why we offer you customised transport solutions that are tailored to your individual needs. These include special delivery times and special handling processes for particularly important and urgent goods. In exceptionally time-critical cases, our On Board Courier and Air Charter services are available to ensure that your shipments reach their destination worldwide in the fastest possible way.

Furthermore, our premium 'White Gloves' service guarantees particularly careful handling of valuable or sensitive goods, and with direct contacts for special ser-

vices, we guarantee professional processing of your request from a single source - from enquiry to delivery.

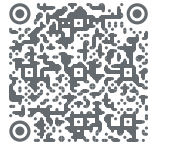

Benefits

- Customised solutions for individual and complex requirements.
- Particularly careful handling of valuable and sensitive goods
- Professional support for your logistics needs from a single source.
- Solutions for special logistical challenges and projects.

Pharma logistics

Expertise for your sensitive shipments

trans-o-flex has long been the national expert for the safe transport of pharmaceutical and healthcare products – whether actively temperature-controlled or without cooling.

This proven expertise is combined with GEODIS' global strength. This enables us to provide globally validated logistics solutions that meet the stringent requirements of the pharmaceutical and healthcare industries and ensure compliance with global standards such as Good Distribution Practices (GDP) throughout the entire supply chain.

COLD CHAIN MANAGEMENT

Secure supply chain thanks to GDP-compliant, CEIV-certified network.

ACTIVE & PASSIVE CONTAINERS

Temperature management from production to delivery.

IRIS & IOT TRACKING

Real-time tracking and sensor-based monitoring for temperature and vibration.

INTERNATIONAL

Your specialist *for international pharmaceutical and sensitive goods logistics*

trans-o-flex combines national expertise with the European EURODIS network and the global strength of GEODIS. The result: a flexible transport organisation that offers tailor-made international solutions for your industry – even for complex global requirements.

Your advantage: a strong team. All international opportunities.

Benefits

Global advantages – for you and your customers

GLOBAL REACH

Our global network gives you access to one of the world's largest logistics networks. Whether in Europe, Asia or America, we connect your markets and enable you to reliably ship and receive goods to and from almost any country.

CUSTOMISED SOLUTION

Our diverse service portfolio enables us to work with you to configure the perfect solution, tailored precisely to your international requirements and individual priorities.

EFFORTLESSLY ACROSS BORDERS

International customs regulations are complex. Our expertise ensures professional handling, minimises risks and guarantees that your shipments are transported in compliance with the law.

MORE THAN JUST TRANSPORT

Together, we will optimise your entire supply chain: from analysis to implementation of efficient and resilient logistics processes. Reduce costs, increase efficiency and secure your supply chain for the future.
