

Contract Logistics Partner

Ranging from procurement logistics to secure, GSP and GMP-compliant storage with many service options and fulfilment services through to distribution.

2-8 °C 

15-25 °C 

Our benefits

Your contract logistics solution

COMPLETE LOGISTICS CHAIN

End-to-End Logistics: Focus on your core business – we handle warehousing, picking, and dispatch from a single source.

HIGHEST SECURITY

Uncompromising Security: Professional handling of goods according to the strictest guidelines and requirements for pharmaceuticals, cosmetics, and electronics.

INDIVIDUAL SERVICE

Tailored Services: Wholesale and manufacturing licences, repacking, labelling, serialisation, verification, and decommissioning of pharmaceuticals – flexible to your needs.

ACTIVE TEMPERATURE CONTROL

Precise Temperature Control: Storage in controlled environments (2–8 °C and 15–25 °C) with seamless temperature and humidity monitoring.

TRANSPARENT AND SECURE PROCESSES

Full Process Transparency: Track your consignments digitally – including temperature history.

GOODS DISPATCH

Optimised Dispatch Times: Late order acceptance and handover times through direct connection to the trans-o-flex networks.

CERTIFIED

Certified Quality Standards: Uniform processes according to GSP and GDP for the highest quality assurance.

DANGEROUS GOODS COMPETENCE

Secure Dangerous Goods Storage: Professional storage of sensitive and high-value goods, including narcotics.

MULTI-USER LOCATIONS

Cost-Efficient Multi-User Locations: Reduce your costs by utilising our flexible location concepts.

Fast. Secure. trans-o-flex.

For everything that needs to arrive safely and quickly

For over 50 years, trans-o-flex offers its customers customised and comprehensive logistics solutions for demanding industries.

With over ten different express services and actively temperature-controlled networks (2–8 °C and 15–25 °C), we achieve a standard delivery time within the next working day - for fast and secure deliveries. Our system enables end-to-end processing of the entire logistics chain - from collection, storage, packaging and serialisation through to on-time delivery. For time-critical consignments without reloading, our direct and charter journeys offer particularly fast and efficient delivery - directly to the recipient.

In addition, with our Special Service, we develop individual logistics solutions for highly complex or specialised requirements that go beyond the standard

With the global network of trans-o-flex and GEODIS, you benefit from solutions in Supply Chain Optimisation, Freight Forwarding, Contract Logistics, Distribution & Express, Road Transport and Airfreight for your international expansion.

Global. Solution-orientated. Connected.

EU & worldwide
warehouse locations with
the GEODIS network.

CLEANROOM

GMP-approved packaging

Your products in the best of hands

Rely on our expertise in GMP manual packaging in ISO 8 cleanrooms. We offer you temperature and humidity conditioning, serialisation, weight control, contract management, documentation and warehouse connection. Everything from a single source with subsequent transport in the specialised networks of trans-o-flex.

Pharmaceutical logistics

Contract logistics for the pharma industry

NARCOTICS WAREHOUSE (BTM)

Fulfilment of all structural, safety and air-conditioning requirements.

VALIDATED WAREHOUSE (WMS)

Certified warehouse management system that guarantees efficiency and optimises processes, saves time and resources.

QUALITY MANAGEMENT (EQMS)

High quality standards for efficient quality assurance.

SPECIALIST STAFF ON 24-HOUR EMERGENCY STANDBY

Pharmaceutical specialists, pharmacists and PTAs, among others.

ENVIRONMENTAL SOCIAL GOVERNANCE (ESG)

Our Alzenau reference facility directly utilizes 40% of the energy produced by its photovoltaic system. Excess electricity is fed into the public grid. Furthermore, heat recovery from the cooling system aids in energy optimization.
