

SERVICES PART 6

Sensitivity

Flexible shipment of sensitive goods

Our entire system is also geared to the safe transportation of dangerous goods (except class 1). Because not only are our drivers trained accordingly, our vehicles are also equipped with the appropriate load securing means and protective equipment for the respective dangerous goods. Likewise, with the additional option „Oversize & Overweight“, there is hardly a consignment that is too large or heavy for trans-o-flex.

Services

Hazardous Goods Service & Radioactive

trans-o-flex enables you to transport all classes of dangerous goods (exception: class 1 ADR and/or minimal restrictions for other classes and certain UN).

OVERVIEW OF SERVICES:

- Delivery and collection of your dangerous and radioactive goods.
- Full compliance with legal requirements of GGVSEB / ADR for carriage and handling.
- Notifications for your consignees via trans-o-flex insight.
- Telephone information through consignee service.

BENEFITS:

- A single service provider for the forwarding of all highly sensitive products.
- Safety thanks to qualified personnel.
- Coordination of the time-definite intermediate storage (decay chamber) of radioactive pharmaceutical goods.
- Can be combined with other services.

Oversize & Overweight

Almost no consignment is too big or too heavy for us. With the additional ,oversize' option, even your bulky deliveries reach their destination safely. Detailed information on oversize and overweight shipment is available to you at any time on our website under „Legal“.

OVERVIEW OF SERVICES:

- Collection, sorting and delivery of your goods which deviate from the specified standard due to their dimensions and weights.
- Manual or automatic checking and labelling of the deviation.
- Documentation of the deviation.
- Manual sorting.
- Additional sorting using sorting trays.

BENEFITS:

- Simple and transparent definition of oversize and overweight.
- One service provider for standard and oversized items.
- Can be combined with other services.
