

SERVICES PART 5

Sustainability

Looking ahead to the future

Whether CO₂de green, returnable packaging systems or packaging recycling – with trans-o-flex you can actively focus your actions on environmental protection issues. A comprehensive sustainability strategy is therefore the basis of our corporate strategy, because we know that we not only want to safeguard our own business in the future, but also make our contribution to actively supporting concepts such as environmental protection by acting in an economically and socially responsible way.

Services

co2de green

Support your sustainability strategy with the co2de green label and combine the customary trans-o-flex quality with CO2 offsetting. Perfect for environmentally conscious customers and businesses. Optionally available as a conscious decision for the environment and nature.

OVERVIEW OF SERVICES:

- We offset CO2 emissions by participating in climate protection projects.
- At the end of the year, you will receive a certificate confirming that you have offset your CO2 emissions.

BENEFITS:

- Improvement of your company's carbon footprint.
- Highlighting your commitment to the environment.
- Improve your image.
- Inclusion of logistics in your own carbon footprint.
- Can be combined with other services.

Returnable packaging systems

Replace your packaging with customised returnable logistics concepts that are economically sound and environmentally effective.

OVERVIEW OF SERVICES:

- Carriage of your goods in returnable containers.
- Collection, sorting and palletising of returnable containers.
- Return of returnable containers according to the type of returnable system and agreements.
- Ensuring the flow of information according to the type of returnable system and agreements.

BENEFITS:

- Standardised coordination of shipment and return.
- One partner for returnable packaging systems from various system providers.
- Reduction of your packaging costs.
- Environmentally friendly.

Services

Returnable transit packaging (RTP)

We collect the empty packaging from your customer and deliver it to an address you specify. The packaging is handed over to our drivers in the course of the next delivery.

OVERVIEW OF SERVICES:

- Take your empty packaging with you.
- Delivery to the address of your choice.

BENEFITS:

- Re-use of your own packaging.
- Minimisation of your customer's disposal costs.
- Simple administration.
- Environmentally friendly service.
- Can be combined with other services.

Your sustainable partner

In line with social and economic requirements, we do what we can to be as environmentally friendly as possible. To reduce greenhouse gas emissions, we use modern vehicles, driver training, route optimisation, geothermal systems, green electricity, energy and water-saving measures, waste separation and returnable systems. We also support various environmental and aid projects. By doing so, we want to live up to our responsibility and allow our children and grandchildren to grow up in an environment that is as natural as possible.
