With EURODIS, you use a unique system for parcels and pallets – combi-freight. This service in 36 European countries makes your international shipping easy. With efficient partners in every country, who carry your goods quickly, carefully and reliably according to defined quality standards.

- ¹⁾We will be happy to provide you with specific details such as postcode allocation and exceptions, hazardous goods classes, COD amounts etc. on request. If you have any questions, please get in touch with your trans-o-flex contact.
- ²⁾ Does not apply to consignments of hazardous goods.
- ³⁾ Does not apply to hazardous goods and pallet consignments (delivery via KBS Transport & Logistique).
- ⁴⁾ Does not apply to consignments to Åland with postcode 22000-22999, as this is not a Finnish tax territory.
- ⁵⁾On request. Check for availability of special service required in advance.
- ⁶⁾ The shipping of parcels and pallets with active temperature control is handled by the partners of the EUROTEMP network.

HG = hazardous goods LQ = limited quantity

Under the EUROTEMP brand, trans-o-flex has established a region-wide special network in Germany, Austria, Belgium, the Netherlands, France and Luxembourg for actively temperature-controlled international shipments and final-mile distribution of sensitive goods. It also meets the special requirements of the EU-GDP guidelines for the shipment of medicines, thus contributing to pharmaceutical safety in Europe.
