

SERVICES PART 1

Express

Our standard is
express

With over ten different express services and a standard delivery time of less than 24 hours, we offer you a wide range of services for time-critical deliveries. This enables us to ensure that your delivery is guaranteed to arrive the next day – even by a specific time. We do not limit ourselves to pure package shipments, but also transport complete consignments as a combined pallet and package shipment (combi-freight) and all this entirely geared to your individual requests.
